

We make gold and silver work for you

*Gold and silver are the perfect combination of wealth and security.
Our special skill: making them work for you.*

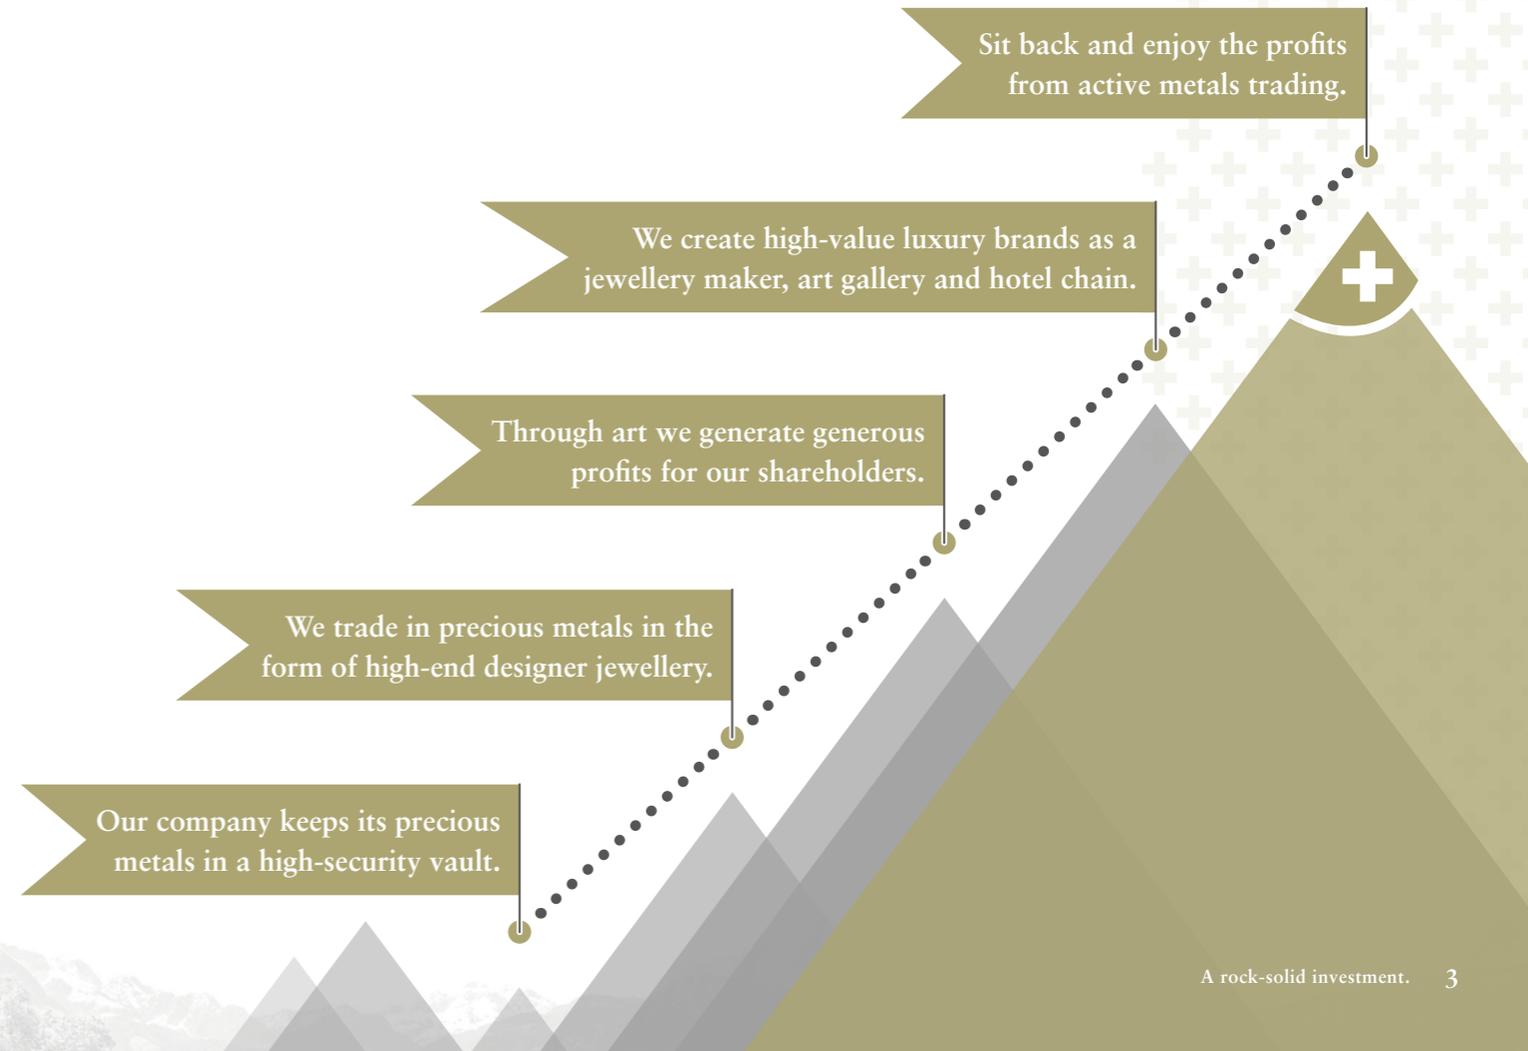

A rock-solid investment. *Your long-term benefit.*

The key questions that we can provide direct answers to:

How do we transform shiny precious metals into sparkling profits, bypassing unpredictable capital markets?

How have we designed our security concept around physical gold and silver, and what control do our shareholders have over it?

Valuable security

Security combined with performance –
Reap the benefit of synergy effects and high-margin products.

1. Precious metal as security.

Our company combines precious metals trading with top-quality jewellery. Most of our inventory comprises physical gold and silver. Our shareholders have extensive control over these assets.

2. Jewellery as a money-maker.

We are able to achieve high margins on jewellery. Our production methods are cost-efficient and state of the art. Our brand stands for excellent value for money and the most engaging retail experience in the sector.

3. Art: a fine ambience and lucrative profits.

We generate attractive profits through art. We search for the undiscovered gems of the art scene and polish them into shining diamonds. Our goal is to become one of Europe's top galleries in curating gardens and outdoor living spaces. The profit potential in this sector is enormous.

4. An exclusive hotel where the sum of the parts is greater than the whole.

A perfect symbiosis of precious metals, jewellery, art and accommodation to inspire our clients and guests. Lower costs, higher revenues – a winning combination which obviously appeals to shareholders too.
